---

Hello-

We've incorporated edits we received on the latest version of the Q&A document, including some substantial edits from OGC and others that warrant another look by everyone before we publish.

Dave Korotney and I incorporated Roland's edits into this document, so the track changes will show our names.

Some Q&As have been pulled out of the document until we can resolve outstanding concerns or questions: **Ex. 5 Deliberative Process (DP)**

If you can, please take a look and respond with any edits by Monday, COB.

Thanks,

Meg
